

Style tile

Inspiration from the style:

Bigli migli stickers

Contour line:

I will have black contour line, because my story will be black and white with a little bit of red, black contour line will help people to understand better characters.

Characters/background relationship:

The characters are in direct relationship with background, because I use as main colours black and white with a little bit of red, that will have a great and simple contrast of colours.

Specific characteristics in the style:

The main colour is black that will do the difference between background and characters. The characters are very close to people that will show the love story in

Colours:

I used black, white and red colours that look very simple and great together. Black and white colours can show the simplicity of the story, but red colour can do this story more beautiful.

Example of the style:

Description of the idea

The story present us two characters, a strong boy, that thought that he is very bad and couldn't love and a beautiful girl.

When the boy saw the girl for the first time he did not understand what is this feeling, but he was brave enough to approach her.

Every minute that he stay with she it makes him better. She made him step on a better path in his life.

The boy and the girl will have a very long and happy life together full of love, surprises and patience

Now the boy knows what was that feeling that he felt the first time when he saw his lovely girlfriend. This feeling was LOVE.

Message:

Even the worst person can be better when he or she is in love.

Love can change our world.

Genre:

Romance
